Facility:

The Shawnee Country Club pool is a four lane, twenty-five yard outdoor facility with non-turbulent lane lines ranging in depth from three feet to five feet. We do not require in water starts. The facility has boys and girls locker rooms with restrooms and showers. Seating at round tables under shade umbrellas is available to watch the meet, however folding chairs are encouraged and welcome. Parking is limited so car-pooling is recommended and appreciated. A concession stand selling a variety of refreshments will be open for all meets as will a grassy play area steps from the pool for non-swimmers. Please note: our baby pool is closed during all swim meets. As a reminder, this is a country club run facility which means smoking, alcohol and drugs are not permitted on the premises.
