Directions: Take US 50 West towards the Bay Bridge. Take last exit before Bridge (Exit 37 to Stevensville). At the top of the exit ramp, turn right at the stoplight onto MD 8 and MD 18 north. Proceed north on MD 18 (1.0 mi) to Larch Place (1st right past Kent Island High School) and turn right. Proceed to stop sign and turn left onto Old Love Point Road. Take the second right onto Nichols Manor Road. Follow Nichols Manor Road approximately $\frac{3}{4}$ mile until you see the pool.

Parking: Limited parking is available in our pool parking lot, with additional parking available on along Nichols Manor Road. Please try to park on the right side (pool side) only of Nichols Manor Road to allow room for cars to pass. Also, please drive with care – we have many families with young children in our neighborhood.

Facility: Cloverfields' primary pool is a five lane, 25-meter pool. We have starting blocks, non-turbulent lane lines, and backstroke flags for our swimmers. We use Hytek Meet Manager, have a Colorado Infinity Starting System, and a Dolphin Timing system. The shallow end is 3.5' deep; our deep end is 9 ft. We do not require in-water starts.

The Cloverfields community pool facility and grounds features a 30' x 60' covered pavilion with concession area that will be open during all home meets, as well as a clubhouse with restrooms, shower and changing facilities. A limited number of lounge chairs are available for spectator seating, and guests are encouraged to bring their own camp chairs for additional lawn seating. *Please note that our baby pool will be closed during swim meets.* Our community playground is located just outside the pool's fenced enclosure and is open to our guests during the meet.
